Results-driven software engineer with 2 years of experience in designing, developing, and delivering high-quality software solutions. Proficient in multiple programming languages and frameworks, with a strong emphasis on problem-solving and innovation.

Education

Bachelor of Technology, *Oriental College of Technology Bhopal*

08/2019 – 07/2023

Computer Science Engineering

Bhopal, India

cgpa- 8.27

Projects

Moodify

A sleek and responsive music player website using React.js and Tailwind CSS. It offers an immersive music experience with features like playing, pausing, and skipping tracks, search functionality, user customization options, and seamless navigation. The website prioritizes performance optimization for fast loading and smooth playback.

DALL-E 2.0

This React.js and Tailwind CSS web app utilizes AI algorithms to generate visually appealing images based on user-entered keywords. With a user-friendly interface, customizable options, and easy sharing/download features, it provides an efficient platform for keyword-based image generation.

Professional Experience

Front end developer, *Qloron Pvt. Ltd.*

05/2021 – 12/2021

Nagpur, India

- Assisting in the creation of responsive and user-friendly web pages by writing clean HTML, CSS, JavaScript, ReactJS code, and ensuring cross-browser compatibility and accessibility.
- Conducting thorough testing and debugging of web pages to identify and fix any front-end issues or bugs, ensuring a smooth and error-free user experience.
- Translating design mock-ups into functional web interfaces, ensuring consistency in design elements, and enhancing user experience through intuitive navigation and interactive features.

Skills

Front end development

HTML, CSS, React JS, NextJS

Back end development

NodeJS, ExpressJS

Programming languages

C++, Python

Database

MongoDB, SQL
